# WORLD GUTTER SYSTEMS®

## GUTTER & DOWNSPOUT

- Available in 16 oz., 18 oz., and 20 oz. copper
- Gutter is sold in 10, 18 and 20 foot lengths
- Downspout is sold in 10 foot lengths
- Gutter is available in 4 inch, 5 inch, 6 inch, and 7.6 inch sizes
- Downspout is available in 2 inch, 3 inch, 4 inch, and 5 inch sizes

**WITH PERFECTLY FITTING PIECES, THE WORLD GUTTER SYSTEM® IS THE WORLD'S MOST EASILY INSTALLED HALF-ROUND GUTTER SYSTEM**

Our gutter profile is deeper. We use wider copper coil (girth) to fabricate our gutters. Our 5" gutter has as much copper and moves as much water as a standard 6" half round gutter. The chart below illustrates the difference.

WGS – WORLD GUTTER SYSTEMS®	WGS Girth	Competition
5" Half Round Copper Gutters	11 1/2"	10"
6" Half Round Copper Gutters	13 1/8"	11 1/2"

**You get more copper with the World Gutter System®!!!**

**World Gutter Systems® products are also available in 20oz. Zinc and pre painted 24 Gauge Galvanized G90**

## WORLD GUTTER SYSTEMS®

**10** The World Gutter System® is the best quality half-round copper gutter system available. The World Gutter System's gutter and downspout are made in 16 oz., 18 oz., and 20 oz. copper.

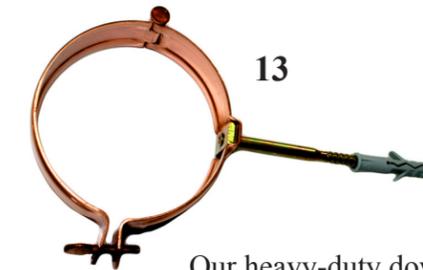

All other World Gutter System® parts and accessories are made from 18 oz. copper.

**12** Our gutter hangers (fascia and roof mount styles) are made from solid copper, 3/16" thick and 1-1/8" wide. They are the strongest copper hangers available.

**9** Our round downspout and elbows are seamless and flared on one end for a perfect fit.

**13** Our heavy-duty downspout brackets are the strongest and most versatile on the market.

### PRODUCT KEY:
