## Roof Hanger Bending Tool

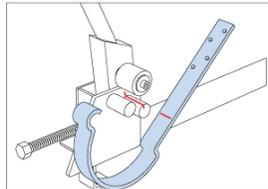

### Bending roof hangers

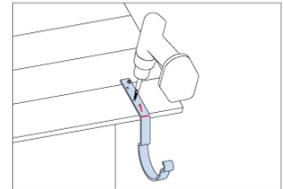

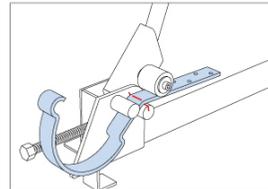

Mark the hangers for the gutter incline. 1/16 to 1/8" per 3ft.

Number the hangers. 1 is for the "low hanger" Last number is the "high hanger"

Bend hangers at the marking.

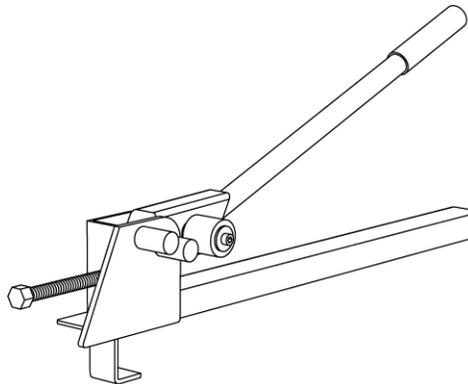

Mount hanger #1 "low hanger" and fasten the other hangers in order.

Once set, the tool will quickly and easily bend roof mount gutter hangers to the EXACT angle every time
